

## CSIS 1280 - MULTIMEDIA WEB DEVELOPMENT

## Quiz 1 Practice Exercise Note: this exercise is for your learning and is not graded.

## **NAFTA Webpage**

Using the content in the text file provided, create a NAFTA Webpage and save it as "nafta-intro.html". Note: copy and paste the text file contents into your

Please use HTML tags and CSS to structure the notepad text given as follows:

- 1. The text "North American Free Trade Agreement (NAFTA) -Fast Facts" should be an h1 heading. Its text color should be "navy", apart from the last part "Fast Facts" which should have green text color. The h1 element should have a left margin of 50px; Please use CSS for styling.
- 2. Insert logo image inside the h1 element, just before the text. Use CSS to set width of logo image to 50px and its height to "auto".
- 3. Insert an hr element (horizontal rule) just below the h1 element.
- 4. The rest of the content after the horizontal rule should be inside an **article** organizational element. Please use other organizational elements (i.e., section, aside) as necessary. Use CSS to style the article element to have a left and right margin of 50px.
- 5. Please insert "nafta\_countries.jpg" image above the text inside the article element. Use sectioning/organizational element for the image as necessary. Use CSS to set the width of this image to 100% and the height to "auto". This image should also have a padding of 50px to the right and to the bottom. Note: when your page is completed, this image should appear to the left of the text.
- 6. The text "History" should be an h2 element and should be display in red (use CSS for styling).
- 7. The text after "History" and before "Prosperity" should be an ordered list. Please use CSS to display the last list item of this ordered list in blue text.
- 8. The text "Prosperity" should be an h2 element and should be styled to display as blue text
- 9. The text after "Prosperity" heading should be an unordered list.
- 10. Insert a paragraph and incorporate the following text" Want to lean more about NAFTA? Please click <a href="here">here</a> for more resources. The word "here" should be a link with the following URL for href attribute value: <a href="https://www.international.gc.ca/trade-commerce/consultations/nafta-alena/toolkit-outils.aspx?lang=eng">https://www.international.gc.ca/trade-commerce/consultations/nafta-alena/toolkit-outils.aspx?lang=eng</a>.

- 11. Use CSS to set page background color to "#b6c8eb".
- 12. Your completed webpage should look like the exhibit below.
